310.855.3514

Maurice Williams is a patent agent in the firm's technology/intellectual property law group. Maurice's professional experience includes honing a strong foundation in finance, technology, and research.

Prior to joining Munck Wilson Mandala, he served as the Finance Product Operations Manager at 1913 FinTech. Maurice demonstrated expertise in conducting in-depth research to identify emerging market trends, new technologies, and client needs. He also successfully architected and deployed over 100 SaaS solutions for the monitoring, managing, and securing of mobile computing devices.

Moreover, Maurice is a published author for his contributions to electrical engineering applications in microfluidics, as evidenced by his publication with the University of California, Berkeley. His unique blend of financial acumen, technological proficiency, and research background make him a valuable asset to the IP team.
